ASSIGNMENT OF HEALTH PLAN BENEFITS AND RIGHTS

I understand and agree that (regardless of whatever health insurance or medical benefits I have), I am ultimately responsible to pay Northwoods Family Chiropractic, as well as all employees, employers, representatives, and agents thereof, (hereinafter collectively referred to as "Healthcare Provider") the balance due on my account for any professional services rendered and for any supplies, tests, or medications provided.

I hereby authorize payment of, and assign my rights to, any health insurance or medical plan benefits directly to Healthcare Provider for any and all medical/healthcare services, supplies, tests, and/or medications that *have been* or *will be* rendered or provided; as well as designating and appointing Healthcare Provider as my beneficiary under all health insurance or medical plans which I may have benefits under.

I hereby authorize the release of any health status, conditions, symptoms or treatment information contained in your records that is needed to file and process insurance or medical plan claims, to pursue appeals on any denied or partially paid claims, for legal pursuit as to any unpaid or partially paid claims, or to pursue any other remedies necessary in connection with same.

This assignment and/or designation will remain in effect unless revoked in writing. A photocopy or scan of this document is to be considered as valid and as enforceable as the original.
